Re: Reference Letter / Ward General Contractors, Inc.
Student Recreation Center / Kennesaw State University

A request has been made of me, to make reference to the above named contractor and the work that they performed on East Side Elementary, that is as follows:

Ward General Contractors did construct an addition for the Cobb County School System and did complete the project on schedule and within budget. I recommend this contractor to anyone concerned to do work on however large or small of a project.

Mr. Floyd J. Ward III is a hand's on owner and is conscientious of his people's work ethic and professionalism.

I can be reached for further details if required at 770-437-2802
